SMA Announces Rebate Program for Sunny Boy 240-US Micro Inverter

Installers to Receive Cash Back for Each Purchase Made through the End of 2015

ROCKLIN, Calif., June 2, 2015—SMA has rolled out a rebate program for its [Sunny Boy 240-US](#) micro inverter. Installers can now receive \$10 cash back for each Sunny Boy 240-US purchased in the United States through December 31, 2015, with no quantity limitations.

Redeeming the rebate is simple and can be completed in two easy steps. First, installers must purchase the Sunny Boy 240-US from a participating [SMA Authorized Distributor](#). Then, they must [submit purchase information](#) along with the receipt to SMA before the end of the following calendar month. Once that is received, SMA will mail a rebate check within 90 days directly to the installer.

“With each purchase of the Sunny Boy 240-US, installers will receive SMA’s legendary reliability, American-assembled quality and more cash back in their pockets,” said Henry Dziuba, president and general manager of [SMA America](#). “These benefits translate into significant short-term margins and long-term O&M savings.”

The Sunny Boy 240-US is ideal for residential systems and rooftops with complex, shaded situations. It boasts an improved cabling concept that eliminates the need for a trunk and branch cabling scheme, increasing flexibility. Simple installation is achieved by pre-assembled AC plugs and connection cables used in a daisy chain configuration.

Furthermore, the Sunny Boy 240-US includes the exclusive Sunny Multigate-US, which provides reliable, distortion-free communication between the micro inverter and [Sunny Portal](#) by keeping the powerline communications on a private band. This groundbreaking technology enables greater energy production and superior reliability by mitigating the damaging effects of temperature-related stress commonly found under a module. The result is a drastically reduced failure rate when compared to other micro inverters.

The Sunny Boy 240-US is available via a streamlined ordering process and with warranty options that can be easily upgraded to 20 years with minimal investment. To locate an SMA Authorized Distributor, solar professionals can visit SMA America's website and click "[Where to Buy](#)" to learn more about each distribution partner. [Terms and conditions](#) for the Sunny Boy 240-US rebate program are available at www.SMA-America.com.

About SMA

The SMA Group, with sales of more than €800 million in 2014, is the global market leader for solar inverters, a key component of all PV plants and offers innovative key technologies for future power supply structures. It is headquartered in Niestetal, near Kassel, Germany, and is represented in 21 countries. The Group employs more than 4,500 people worldwide. SMA's broad product portfolio includes a compatible inverter for every type of module on the market and for all PV system sizes. The repeatedly awarded product range includes system technologies for grid-connected photovoltaic systems as well as off-grid and hybrid systems. The technology is protected by more than 550 patents. The range of services is supplemented by comprehensive services and operational management of large-scale PV power plants. Since 2008, the Group's parent company, SMA Solar Technology AG, has been listed on the Prime Standard of the Frankfurt Stock Exchange (S92) and also in the TecDAX index. www.SMA-America.com
